Mentoring of students is based on the following objectives: - To increase the teacher-student contact hours - To identify and address the problems faced by slow learners and first generation learners - To encourage advanced learners - To decrease the student drop-out rates - To prepare students for the competitive world Every year, departments individually organize orientation sessions on the class commencement day for students of first Part and explain the designing and implementation of the mentoring system of the department. Departmental teachers. In the mentoring process, all necessary information related to the student such as the contact number, email of the student, family income, category, gender etc are initially collected by the department through the student database format provided by the IQAC, collected at the time of admission for a new session. Departmental teachers maintain interaction with students through individual meetings, social networking sites and interaction boards of learning management system. Teachers discuss with parents during interactive program and try to identify the problems faced by students and related issues.
